

English

This term we will be writing non-fiction recounts about our unique experiences we have had during our time at home.

We will writing our own newspaper reports.
Also, we will be looking at how to develop our descriptions of character and settings within our fictional writing.

Music

We will be exploring music and its purpose through movement and dance.

RE

Christianity

We will be finding out more about the Christian way of life by drawing focus upon the creation story and finding out what this teaches Christians.

Physical education

We will be exploring Breton Dance and outdoor adventurous activities.

Science

We will be learning all about light.

Modern Foreign Languages

We will be creating our own Breton style dance and writing an instruction text for our dances in French.

Communities Adapting to Change

Autumn 2020—Church Cove Class

Computing

We will be learning about coding as well as developing our ICT skills when creating and presenting our work.

Maths

This term we will be learning addition and subtraction mental and written methods; how to tell the time; how to understand place value; fractions; multiplication methods; shapes and angles and how to solve a range of different problems.

Inquiry

Geography

How Communities have adapted to change.

Art.

We will be creating statement art in the style of Bob and Roberta Smith.

See “What does Inquiry based learning look like?” for hints on how to support your child’s learning through provocations and questioning.

Home learning

All of our home learning work for Friday afternoons will be posted on seesaw.
